

# 2015 Maneuver Warfighter Conference

## Work Group #6 – Reconnaissance and Lethality

Fort Benning, Home of the MCoE

Reconnaissance – Lethality Linkage (R-LL) (15-17 September 15)			
Assigned Organization: 316 CAV BDE		Assigned Facilitator: COL William Thigpen	Assigned Co-facilitator: FMT Reps MAJ Bob Underwood
Action Officer Assigned: MAJ Lance Leonard		Phone number: (706) 545-8660	
2015 Problem Statement:		How can the MCoE understand and integrate Operational Force lessons learned to address the DOTMLPF gaps and challenges associated with synchronizing reconnaissance with lethality across the WfFs?	
Objectives:	Across The Maneuver community of practice (MCoP) 1 – Update the force on the R-LL operational concept based on SFL&P 2 – Understand recent R-LL lessons learned from RAFs, CTCs, and current conflicts 3 – Update the force on MCoE POI initiatives to address R-LL 4 – Understand impacts of current and near term technology on R-LL (AH-64E in recon, UAS/CUAS, Network and Net-Lethality)		
Outcomes:	Situational understanding and consensus from MCoP on: 1 – the revised MCoE R-LL operational concept based on SFL&P. 2 – Implications of AGO, network/interoperability, and organizational design for R-LL. 3 – revised MCoE approach to training R-LL synchronization across the WfFs.		
Question 1:	Does the MCoE R-LL operational concept accurately capture the what, why and how of synchronizing reconnaissance with lethality across the WfFs?		
Question 2:	What are the DOTMLPF gaps and challenges associated with synchronizing reconnaissance with lethality across the WfFs?		
Question 3:	How will emerging technology impact our capability to synchronize reconnaissance with lethality across the WfFs?
